DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 2, 4, 6-25 and 31, drawn to reporting the revenue associated with rental transactions, classified in class 705, subclass 1.
 - II. Claim 3, drawn to automatically receiving payment for rental charges, classified in class 705, subclass 16.
 - III. Claim 5, drawn to setting rental rates for a self-storage unit, classified in class 705, subclass 400.
 - IV. Claims 26-29, drawn to notifying interested parties about an auction, classified in class 705, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as reporting revenue based on customer and inventory information.

Invention II has separate utility such as automatically receiving payment for rental charges associated with a self-storage unit. Invention III has separate utility such as setting rates for the rental of a self-storage unit. Invention IV has separate utility such as notifying customers regarding an auction. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
